

Pathfinders Multi-Year Giving

One22 Resource Center relies on a special group of donors called Pathfinders to provide stability and the power to plan. Pathfinders are donors who make a multi-year gift pledge for three years or more. In this way, a path becomes clear and viable for One22's board of directors and leadership staff as we develop programs for the coming year, based on the real-time needs of our clients and community.

When our neighbors come to One22 Resource Center with a problem, they are met with dignity and understanding. Our team responds to these immediate needs of our community members, and then works in harmony with them to make steps toward stability and self-reliance. Whether someone comes to us when in need of a safety net during an emergency, or they work alongside us to build a budget and action plan toward financial empowerment, Pathfinders allow us to remain responsive to the needs of the Greater Teton community with bold and impactful programs.

As we work toward stabilizing the path ahead with the families we serve, your multi-year commitment to One22 Resource Center provides the stability our organization needs to continue making lasting change. Your steadfast support of One22 Resource Center positions us to serve as a trusted resource for education and support, and to move forward with initiatives to empower our neighbors to move beyond their emergency.

We welcome new Pathfinder donors to join this important source of reliable funding by making at least a three-year commitment at the same level of giving.

☐

Yes, I would like to become a Pathfinder multi-year donor by committing my support with a gift of \$ _____ for each of the next _____ years.

Please send me a reminder 30 days prior to my anticipated payment date of _____ each year.
